RESEARCH IN TECHNICAL INSTITUTIONS - CURRENT STATUS, STRATEGIES AND FUTURE GOALS

Department of ECE

March 22 - 23, 2013

THEME:
This workshop is being organized by Mahaveer Institute of Science and Technology at its campus to encourage faculty and students of India’s technical institutions to get an insight into quality research and research practices. Eminent and experienced speakers from academia and industry will be giving expert lectures during the workshop. The talks will predominantly be aimed at enabling the participants to see the vital need for active research in India’s technical institutions and the enormous benefits derived thereof. This workshop will enable the participants to have healthy discussions and interact with the experts so that they may come up with new insights and ideas towards quality research and research collaborations in a wide variety of areas in engineering sciences. Student participants can gain valuable experience by their interaction with the experts. They will also develop a new insight into the topics that they learn in classrooms and will be expected to come up with innovative ideas and techniques in future.
