Industrial visit was carried out at National Remote Sensing Centre (NRSC) – ISRO Outreach facility on 26<sup>th</sup> November, 2021 especially for third and fourth year students of CSE and IT departments. The main objective behind the visit was to make students aware about how various activities related to rocketry and astrology are carried out in ISRO (Indian Space Research Organisation).

**Location:** 6, Medak Rd, IDA, Near Jeedimetla electric substation, beside JSR complex, Jeedimetla.

I along with 59 students and 3 staff members from our college reached the destination at 10 a.m. As we reached the facility we were guided by the volunteers to the auditorium where a orientation about the visit was given by the head of the facility.

Students from many different institutions also attended the industrial visit. It has been a great experience interacting with different people and knowing their views about astronomy and space.

After orientation the organisation staff played some videos and movie clips related to space and rocketry on the projector, while the volunteers took batches of 10 students with 5 minutes time gap to see the exhibits.

The exhibit is divided into three parts.

- i) The first part consists of the different posters which gives information about different aspects of space. They also exhibited posters related to information of some general topics like human systems, about some great scientists etc. They also exhibited information of different Projects of ISRO till date.

- ii) The second part consists of the models of different projects of ISRO. Starting from the first satellite launched by ISRO “Aryabhata” to the latest model “Chandrayan-2” launched by GSLV Mark III. Each model is given a scale which tells about the actual size of the model. Some other models which were displayed are: Rohini satellite, Bhaskara satellite, ASLV (Augmented Satellite Launch Vehicle), SLV-3 (Satellite Launch Vehicle-3), GSLV (Geosynchronous Satellite Launch Vehicle), GSLV Mk II, GSLV Mk III etc.

- iii) The third part consists of the satellite views of different places. For example there are satellite views of India, Telangana, Hyderabad, Tirumala etc.

After the lecture there was an interactive session with the scientist where the students asked the questions about astronomy and ISRO.

It took us almost 3 hours to complete the industrial visit. It is rightly said that 'See & know' is better than 'read & learn'. All the Students have got a real feel of ISRO's working after this visit. We got a chance to transfer our theoretical knowledge to practical implication. This will even help us students to understand subject matter clearly in future also.

Respected Sir,

Sub: Request for permission to visit Ready mix concrete plant at Tarur on 04.12.2021 - Reg

To enhance the employability of our engineering graduate students and to increase the awareness of the students on ready mix concrete, the Department of Civil Engineering intends to organise a plant visit to **Sherwani Infra Concrete RMC** located at Tarur, Kotheda road, Hyderabad on 04.12.2021. The purpose of the visit is to enhance the knowledge and practical exposure of Engineering students. Students from third year and fourth year B.Tech Civil Engineering program are planned for this visit. The total number of students visiting the RMC plant are eighty five along with five faculty members.

We need two buses to travel from our campus to the plant site and travel back to the campus. The buses will start from our college at 10.00 AM and come back by 02.30 PM. We need to arrange two banners with the Department name along with the name of the Institution for this visit.

In this regard, we request you to grant us with the permission and allow us to visit the RMC plant and learn the tools and techniques along with the materials required on site for the preparation of the concrete mix.

Thanking you and Regards,

Yours sincerely
